LASER PERIO PLAN

The Pure Dental Laser Perio Program It Works

We have designed this program to make the treatment of your periodontal disease very affordable and predictable.

The hygienist will scale and root plane each tooth, and use a special dental laser to sterilize the gum tissue and shrink pockets in those areas. If you follow our home care instructions, we will treat any remaining pockets with laser at no charge for 3 years. Together we will get your gums healthy and keep them that way, hopefully forever.

To keep the warranty, you will need to return to the office every 3 - 4 months for a re-evaluation and periodontal maintenance cleaning.

3 YEAR LASER PERIO
PROGRAM

\$895

INCLUDES: 4 Quadrants of
Laser Scaling & Root Planing
