The Pure White Smile delivers “WOW” results

Love Your Smile

Get a brighter,
whiter smile in
about an hour

Why does Whitening work so well?

It works by restoring your teeth's ability to absorb oxygen. The oxygen from its whitening gel is absorbed deeply into the tooth, dissolving stain molecules.

How long does Whitening last?

Unlike other whitening methods, with easy periodic home maintenance, the Whitening Deep Bleaching™ System is entirely permanent.

Is there pain or discomfort?

The Whitening System is a whitening gel that, in most cases, produces low to no sensitivity. As a result, most patients have no discomfort from whitening when using this technique.

How white will my teeth get?

The Whitening System whitens teeth dramatically up to 8 -11 shades lighter. Your teeth will have stunning results.

Pure WHITENING OPTIONS

Zoom light-accelerated in-office whitening \$695

The most effective bleaching system offered. Clinically proven to whiten up to 8 shades in one visit. The added bonus? You get outstanding results with little to no sensitivity.

Zoom take-home whitening \$395

Whitening has never been easier, safer, and more effective. Specially formulated gels protect enamel, reduce sensitivity and help improve tooth luster.

Professional Whitening Strips \$ 99

Professionally dispensed whitening formula will give you up to 80% more whitening than the leading retail brand, and dental impressions are NOT required.
